

MODULE VEHICLES

RB 25M

SRS Multi-Purpose Module Maintenance Vehicle.

SRS Road-Rail Vehicle designed especially for maintenance work on railways. The vehicle has the SRS AWD hydrostatic rail travelling device with a swivelling bogie for easy access to the rail. The vehicle can be driven from the cab and from the outside with a remote control. Different type of modules can be fitted on the vehicle such as cranes, support legs, loading deck, drum racks, pantograph, tool cabinet, workshop, wire lifters, scissor- and access- platforms, etc.

ROAD TO RAIL

World leading manufacturer of multiflexible road - rail vehicles

MODULE VEHICLES

RB 25M

Vehicle Data :

Chassis: Volvo or customers choice
 Length: 12m
 Width: 2,5m
 Hight (Road): 4,0m
 Hight (Track): 4,2m
 Speed (Road): 90km/h*
 Speed (Track): 70km/h*
 Drive (Track): Hydraulic All wheel Drive
 Brake: Wagon brake
 Rail wheel: ø 500mm

[1] Access Platform Module:

Platform type: KLL12-T1/3
 Max Height: 12m (TOR to platform floor)
 Max Platform load: 450kg or 3 persons
 Reach: ±6m from track center (10,2m platform centre)
 Wire lifter type: 7-4
 Height: 7,2m
 Horizontal force: 1250 N
 Vertical Force: 3500 N

[2] Workshop/tool cabine Module:

Length:1,6m
 Width: 2,5m
 Height: 2,2m

[3] Loading deck Module:

Length:6m
 Width: 2,5m
 Height: 2,2m

[4] Crane Module:

Load: 21tm
 Hydraulic reach: 12,9 m
 Support leg spread: 5,4 m

[5] Snow Removal Module:

Snow sweeper: SRS SRU-SL2,5
 Snow grader: SRS SRU-SR
